San Francisco stands a beautiful and hilly city on the bay where Latin American, Asian, and European influences meet. From the historic and hip Mission District to vibrant Chinatown and Japantown, to Italian-influenced beaches, San Francisco has something to offer everyone.

Global Interns will find the Bay Area is a dynamic center of business and activity of all kind with healthcare, human services, entertainment, communications, and technology being just a few.

_I feel that I have grown more in the last three months on this internship program, than in the last three years. My internship has shown me in practice how to be very data-driven, work fast, and see the whole business working together as a team. I have gained valuable experience working with very efficient tools that I will be bringing home with me!_

- Jon H., San Francisco Global Intern

Please note:
Exact internship is determined through our personalized placement process for each student.
